

# WE CAN'T AFFORD TO WAIT ANY LONGER. NO MORE EXCUSES!

There are less than 10 legislative days left in the 2017 session, which means it's almost too late to fix our crumbling roads and infrastructure yet again.

The SC Senate has had years to address the issue, but has only provided temporary fixes rather than truly addressing the problem.

So, when the SC Senate returns, they must act quickly. Otherwise, we're stuck with this mess for another year - or longer.

## YOUR CALL WILL MAKE A HUGE DIFFERENCE!

It's vital that your senator know where you stand. Your senator works for you, and it's their job to listen to you. It's urgent that you call **Senator Shane Massey at 803-212-6330** and tell him how you feel.

## WHAT WILL IT LIKELY COST YOU EVERY YEAR THEY DELAY?

- \$478 in added vehicle repairs;
- \$418 in extra economic costs resulting from traffic accidents;
- \$707 in lost time and wasted fuel;
- The chance to get to know the 294 people who will die because of S.C.'s poor roadway conditions.
